Full-Stack Software Engineer | Shopify App Developer | AI Engineer | Backend Engineer

EDUCATION

BS – Computer Science, University of Management and Technology, Lahore	2022 – 2026
CGPA: 3.84 (Graduated, FYP grading in progress)	
Final Year Project: A culturally-aware, multi-agent AI tutoring ecosystem for university students	
FSc Pre-Engineering, BISE-GRW Punjab Group of Colleges (PGC), Gujranwala	2020 – 2022
Matriculation, BISE-GRW, Gujranwala	2018 – 2020

EXPERIENCE

Full-Stack Software Engineer, Integriti, Lahore	Aug 2025 – Present (10 Months)
- Built and shipped 5 custom Shopify apps from scratch with Node.js, React (Polaris), and Liquid, owning the full lifecycle from architecture to deployment across Render, Fly.io, Heroku, and self-hosted VMs. - Developed 2 enterprise CRMs using Node.js, TypeScript, and Nest.js to automate complex business workflows; both are in active production use by clients. - Engineered 4 responsive Next.js websites, converting static designs into pixel-perfect, interactive pages with smooth animations. - Designed high-performance REST APIs and backend services with Node.js and Python (FastAPI) to solve heavy business-logic problems.	
Software Engineering Intern, IPS Technologies, Lahore	May 2025 – Aug 2025 (3 Months)
Built reusable UI components and backend APIs using the MERN stack.	

PROJECTS

Custom Shopify Apps	Node.js, GraphQL, Shopify Functions
Developed 5 comprehensive apps from scratch to solve specific vendor problems, using Node.js, GraphQL, and cron jobs for automated product creation, alongside Shopify Functions for cart and discount logic. Architected robust, real-time product synchronization.	
Enterprise CRMs	Node.js, TypeScript, Nest.js
Engineered two fully-fledged Customer Relationship Management platforms built entirely from scratch to handle complex business workflows. Both systems are currently in active production use by clients.	
Frontend Web Development	Next.js, Tailwind CSS
Designed and developed highly interactive, pixel-perfect websites. Built integriti.io and integritistudio.com from the ground up, translating static designs into dynamic landing pages with advanced animations.	
AI Tutor System – FYP	Multi-Agent AI System
Built an Agentic AI system designed to help University students adjust to university, using multiple AI agents working together to provide personalized academic and social support.	

COMPETENCIES & TECHNICAL SKILLS
