### SKILLS

- JavaScript / TypeScript
- Python
- React & Next.js
- Node.js, Express.js, Nest.js
- FastAPI & REST APIs
- PostgreSQL & MongoDB
- Docker & Linux
- Git

### LANGUAGES

- English
- Urdu (Native)

## PROFILE

Full Stack Software Engineer with 1+ year of professional experience delivering production web applications, custom Shopify apps and enterprise CRMs end to end. Proficiency in the JavaScript/TypeScript and Python, from Next.js frontends and scalable Node.js / FastAPI backends to self-hosted Linux and Docker deployments. I just graduated with a BS in Computer Science (3.84 CGPA) with a final-year project in agentic AI systems.

## WORK EXPERIENCE

### Full-Stack Software Engineer

Aug 2025 – Present (10 Months)

*Integriti, Lahore*

- Built and shipped **5 custom Shopify apps** from scratch with Node.js, React (Polaris), and Liquid, owning the full lifecycle from architecture to deployment across Render, Fly.io, Heroku, and self-hosted VMs.
- Developed **2 enterprise CRMs** using Node.js, TypeScript, and Nest.js to automate complex business workflows; both are in active production use by clients.
- Engineered **4 responsive Next.js websites**, converting static designs into pixel-perfect, interactive pages with smooth animations.
- Designed high-performance REST APIs and backend services with Node.js and Python (FastAPI) to solve heavy business-logic problems.

### Software Engineering Intern

May 2025 – Aug 2025 (3 Months)

*IPS Technologies, Lahore*

- Built reusable UI components and backend APIs using the MERN stack.

## PROJECTS

### Custom Shopify Apps

*Node.js, GraphQL, Shopify Functions*

- Developed 5 comprehensive apps from scratch to solve specific vendor problems, using Node.js, GraphQL, and cron jobs for automated product creation, alongside Shopify Functions for cart and discount logic.

### Enterprise CRMs

*Node.js, TypeScript, Nest.js*

- Engineered two fully-fledged Customer Relationship Management platforms built entirely from scratch to handle complex business workflows.

### AI Tutor System – FYP

*Multi-Agent AI System*

- Built an Agentic AI system designed to help University students adjust to university, using multiple AI agents working together to provide personalized academic and social support.

## EDUCATION

### BS – Computer Science

2022 – 2026

*University of Management and Technology, Lahore*

CGPA: **3.84** (Graduated, FYP grading in progress)

Final Year Project: **LUMINA** – a culturally-aware, multi-agent AI tutoring ecosystem for first-semester university students

### FSc Pre-Engineering

2020 – 2022

*BISE-GRW Punjab Group of Colleges (PGC), Gujranwala*

### Matriculation

2018 – 2020

*BISE-GRW, Gujranwala*
